# Solutions

## DESIGN & MANUFACTURING

Engaging a trusted expert equips your team with industry best practices and specialized expertise, enabling rapid success and sustainable growth. Sample solutions focus on:

- **Optimize Operations:** Boost efficiency with Say-Do alignment, standard work, and workflow improvements.
- **Design Excellence:** Focus on cost, reliability, producibility, and additive manufacturing readiness.
- **Problem Solving & Streamlining:** Use value stream mapping and root cause analysis to drive improvement.

## DIGITAL TRANSFORMATION

Only 35% successfully transform. A trusted expert boosts your chances by applying proven strategies. With their help, businesses make better decisions, greater efficiency, and faster growth.

- **Digital Transformation:** Strategy, deployment, and ROI analysis to guide investments.
- **AI & Analytics:** AI agents, workflow creation, digital twins, and advanced physics-based analytics.
- **Engineering Optimization:** Improve lifecycle management, 3D technical data packaging, and tool efficiency.

## PROCESS OPTIMIZATION

Operational excellence starts by identifying bottlenecks that hinder goals. Our proven methods boost efficiency and growth with rapid results.

- **Process Improvement:** Apply LEAN and Six Sigma to eliminate waste and reduce variation.
- **Strategic Execution:** Use Hoshin Kanri and EOS to align strategy and accelerate business growth.
- **Problem Solving & Support:** Leverage TOPS8D and event facilitation for root cause resolution and team alignment.

## EXECUTIVE SERVICES

We align strategy, technology, and talent to deliver solutions that streamline execution, strengthen leadership, and drive sustainable growth.

- **Digital Innovation:** Drive transformation through surveys, AI, PDM / PLM, analytics, and digitalization.
- **Operational Excellence:** Standardize workflows, automate metrics, and drive team performance and efficiency.
- **Organizational Growth:** Strengthen teams with strategy, talent development, and data-driven business planning.
